About POIG

The Palm Oil Innovation Group (POIG) is a multi-stakeholder initiative that strives to achieve the adoption of responsible palm oil production practices by key players in the supply chain through developing and sharing a credible and verifiable benchmark that builds upon the Roundtable on Sustainable Palm Oil (RSPO), and creating and promoting innovations.

POIG focuses on the following thematic areas: environmental responsibility; partnerships with communities including workers’ rights; and corporate and product integrity.

What we do

The POIG Charter
Our Charter is the heart of the initiative, and sets the benchmark for responsible palm oil.

The Charter requires companies to adopt innovative tools such as the High Carbon Stock Approach, and strengthen existing High Conservation Value and Free, Prior, Informed Consent approaches.

Verification
POIG has developed a comprehensive set of auditable indicators which are used to verify compliance with the POIG Charter.

Palm oil producers build on their existing Roundtable on Sustainable Palm Oil audits and third-party auditors provide assurance that POIG verified oil meets POIG requirements.

Innovations
POIG brings together leading NGOs with palm oil producing companies, brands and other actors in the supply chain to share and develop leading practices to ensure that responsible palm oil becomes available in the market place.
